WHAT DO YOU WANT YOUR NEIGHBORHOOD TO LOOK LIKE?

Hillyard Downtown Revitalization Project

Design Charrette - Prioritize uses of discretionary funds as a part of the overall Market & Queen Street revitalization project.

We've come a long way since this was a concept drawing 3 years ago...

Now that improvements are going to be a reality, come help us decide how to spend our money!

Join us for a workshop to discuss priorities for the use of CDBG funds along with the recent grant awarded Hillyard for the Hillyard Downtown Revitalization Project (HDRP). Now that the project is definitely moving forward, it's time to revisit the design elements and what our priorities are. Examples: Do we want special crosswalk designs, more street trees or more lights? Do we want more money spent on Queen or Market? And so on.

We've worked on this project for years, originally with landscape architects and then with the City on our design concepts. Now we need to communicate our wishes to City officials before the project goes out to bid.

Your Hillyard community organizations recognized the need to communicate with the citizens about the current plans and discuss how we want those parts of the plan that we can still control.

Please plan on attending, Monday 12/8, 6pm at the NECC, 4001 N Cook.
